

Silsoft™ EM340-N Conditioning Agent

Description

Silsoft EM340-N conditioning agent is a nonionic emulsion of Amodimethicone for use in hair conditioning and treatment product formulations.

Proposed INCI:

Water (and) Amodimethicone (and) Cetareth-7 (and) Cetareth-25

Key Features and Typical Benefits

- Helps provide silky smoothness and softness to damaged hair
- Improved wet and dry combing
- Enhanced hair manageability

Typical Physical Properties

| Properties | Typical Value |
|--------------------------|--------------------|
| Appearance | Milky White liquid |
| Viscosity (25 °C) mPa-s | 500 |
| Silicone Content (%) | 40 |
| Specific Gravity (25 °C) | 0.99 |
| pH | Slightly acidic |
| Emulsifier | Nonionic |

Typical properties are average data and are not to be used as or to develop specifications.

Potential Applications

- Hair Care (Shampoos, Conditioners, Treatments, Styling agents)
- Body shampoo, Shower gel

Patent Status

Nothing contained herein shall be construed to imply the nonexistence of any relevant patents or to constitute the permission, inducement or recommendation to practice any invention covered by any patent, without authority from the owner of the patent.

Product Safety, Handling and Storage

Customers should review the latest Safety Data Sheet (SDS) and label for product safety information, safe handling instructions, personal protective equipment if necessary, emergency service contact information, and any special storage conditions required for safety. Momentive Performance Materials (MPM) maintains an around-the-clock emergency service for its products. SDS are available at www.momentive.com or, upon request, from any MPM representative. For product storage and handling procedures to maintain the product quality within our stated specifications, please review Certificates of Analysis, which are available in the Order Center. Use of other materials in conjunction with MPM products (for example, primers) may require additional precautions. Please review and follow the safety information provided by the manufacturer of such other materials.

Limitations

Customers must evaluate Momentive Performance Materials products and make their own determination as to fitness of use in their particular applications.
